Professional Granular Products

Weed Controls

Broadleaf Weed Killer / Trimec (PG3W20)

A granular formulation of Trimec which will kill most broadleaf weeds including chickweed, clover, knotweed, and many others. 20lb. bag covers 10,000sf.

Dyclomec 4G (Casoron, Norosac) (PGDY50)

Controls annual and perennial weeds in Nurseries, parks, trees, hedges and other non-crop areas. Not for use on lawns. Use 150-200lbs. per acre.

Ronstar G (PGR050)

Pre-emergent herbicide for control of annual grasses and broadleaf weeds in turf, woody ornamentals, vines and trees. Use 100-200lbs per acre.

Snapshot 2.5G (PGSNAP)

Pre-emergent herbicide for control of annual grasses and broadleaf weeds on ornamentals, trees and nursery stock. Use 100-200lbs per acre.

Team 2G (PGTB40)

Pre-emergent herbicide for control of crabgrass and most annual weeds in lawns. Combines the low cost of Balan with the long residual of Treflan. Use 75-100lbs per acre.

Treflan .5G (PGTR40)

Pre-emergent herbicide for control of annual grasses and broadleaf weeds on ornamentals, trees and nursery stock. Use 80lbs per acre.

Tupersan (PGTU20)

The only pre-emergence that is compatible with seeding. Use 20lbs per 5,000sf for established lawns or 20lbs. per 10,000 newly seeded lawns.

7-0-0 Plus Dimension (TC0550)

A small amount of nitrogen used as a carrier for the best crabgrass preventer available. Dimension provides a wide window of application. 50lb. bag covers 20,000sf.

0-0-3 Plus .03% LockUp & .07% Dicamba

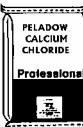

This product is a stable combination of two herbicides, LockUp & Dicamba which are absorbed via leaves, shoots & roots to control a wide spectrum of broadleaf weeds. (50lb. bag covers 10,800sf. @ 4.6lbs / 1000 sqft.)

Professional Fungicides

Affirm PFAFIR 3x2.4lb WDG
Affirm WDG an 11.3% granular formulation of polyoxin D, controls the same diseases as Endorse, is offered in a 2.4lb package, three per 7.2lb case. Covers Anthracnose, Brown Patch, Brown Ring Patch, Gray Leaf Spot, Leaf Spot, Red Thread, Rhizoctonia spp., Snow Mold. Use @ 2.4lb/acre

Alude PSALUD 2x2 1/2 Gal
For preventative control of pythium blight, damping off and summer stress (when used with protect) Use 5 - 10oz. per 1000sf. AI: Mono- and Di-potassium salts of phosphorous acid

Banner Maxx PFBAN2 2x1 Gal
LinkPak PFBALP 10 Gal
Banner Gel PFBAGL 2x6x7.2oz
Preventative systemic fungicide, not a curative. For dollar spot: Use 1oz. per 1000sf. For powdery mildew, brown patch, anthracnose, red thread, rust: Use 2oz. per 1000sf. for 14-28 day control. For Banner Gel, use same rates & control as Banner Max above.

Banol PSBNOL 2x1 Gal
Banol PSBNO2 2x2.5 Gal
Systemic fungicide for prevention of pythium on turf. Use 1.3-4 oz. per 2-5 gal for 1000sf. - repeat applications @ 7-21 days as necessary.

Bayleton 50 WSP PSBA27 4x4x5.5oz
Bayleton 50 Drum PSBA60 50x11oz
Bayleton FLO PSBAF2 2x2 1/2 Gal
Systemic fungicide for turf, flowers and plants. Controls dollar spot, brown patch, copper spot, red thread and rust. Use 1/2 to 1oz per 1000sf. For fusarium use 1 to 2oz per 1000sf.

Chipco Signature PSALS5 4x5.5lb
Newest foliar applied fungicide to control pythium on field and greenhouse ornamentals for 28 day control. Use 2 1/2-5lb. in 100 gallons or 1-2lb per 1000sf. drench.

Chipco 26 GT PS601F 2x2 1/2 Gal
For control of dollar spot, brown patch, helminthosporium and fusarium blight on wide range of foliage. Control lasts from 22-28 days. For flowable use 3-4oz. per 1000sf

Cleary 3336 WSP PSW336 6x4x8oz
Cleary 3336 Flow PSF336 2x2 1/2 Gal
For control of dollar spot: Use 1oz. per 1000sf. Copper spot, brown patch and red thread, Use 2oz. per 1000sqft. Use 4oz. per 1000sf. for fusarium, leaf spot, stripe smut. AI: Thiophanath-methyl

Cleary 3336 Plus PSW336P 2x2 1/2 Gal
Re-engineered formulation of Cleary's 3336 with Patent-Pending Cleartec™ Activation Technology for enhanced disease prevention and control on golf course fairways. Designed to offer all the characteristics of 3336 while extending the length of control on Fairways

by as much as 50% or more. Broad spectrum control of a host of major Fairway diseases including Basal Anthracnose, Bermudagrass Decline, Cool Season Brown Patch, Dollar Spot, Fusarium Blight, Gray Leaf Spot, Pink Snow Mold and many others.

AI: Thiophanate-methyl

Compass PSCM10 10lb Drum
PSCOM1 4x11b
For control of Brownpatch, Leafspot, Anthracnose and Grey Leaf Spot. Use 0.1- 1/4 oz. per 1000sf.

Concert PSCRT5 2x2 1/2 Gal
Broad spectrum control for the entire course. Provides solid preventive control on greens and ideal levels of control on fairways and roughs. Contains Super Weatherstik.

Consan PSCON5 2x2 1/2 Gal

Consan Turf is a contact fungicide and algaecide for the control of fungal and algal pathogens on fine turf grasses. To control fungal diseases in turfgrass, including dollar spot, fusarium blight, leaf spot, brown patch, fading-out, pythium, fairy ring, rust, toad stools, and algae on turf, spray a solution of one pint (16 fluid ounces) of Consan Turf in sufficient water to treat 10,000 square feet or 1/4 acre. Repeat spray applications every 10 to 14 days, as needed to control new or established disease condition. Treatment is required during the warm growing season and may be made when the turf is dry or damp, but not during wet rainy weather. Cultural/Algae and Fairy Ring Control Whenever possible, rough up or scratch up the algae mat with rakes, drag brushes, or similar tools.

Curalan EG PFCURK 12x2.75lb
For control of dollar spot, Leaf Spot, Red thread, Brown Patch, Fusarium, and snow mold. Use 1oz. per 1000sf. or 2.7lbs. per acre.

Daconil WeatherStik PS787W
2x2 1/2 Gal

Daconil ZN PS787Z 2x2 1/2 Gal

Daconil Ultrex PS787U 4x5lb

Daconil Ultrex PS787X 4x10lb

Broad spectrum contact fungicide. Controls dollar spot, brown patch, leaf spot, red thread, helminthosporium, rhizoctonia & others. Rates from 3-11oz. per 1000sf.

Disarm 480 SC PSD480 4x16oz

A broad-spectrum fungicide for the control of certain diseases in turf. Disarm 480 SC Fungicide works by interfering with respiration in plant-pathogenic fungi, and is a potent inhibitor of spore germination and mycelial growth. For optimum results, begin applications preventively and continue as needed on a 21-day interval to limit the potential for development of disease resistance. For Disease Control: Brown Patch, Southern Blight, Target Spot.

Use 8.5 - 17oz. per acre (0.195 to 0.393oz. per 1,000sf.) Higher rate recommended for lawn care. Summer Patch 17.1oz. per acre (0.393oz. per 1,000sf.)

Eagle PSEGL4 4x1 Gal

Controls dollar spot, brown patch, leaf spot.

Rates from .6oz. per 1000sf. 1 case covers 80,000sf

Professional Fungicides

Emerald PSEMER 10x4.9lb

Recommended for control of dollar spot and bentgrass dead spot in golf course turfgrass. The active ingredient, boscalid, attacks pathogens that cause dollar spot in a unique and highly effective way.

Use .13-.18oz. per 1000sf. or 5.7-8.0oz. per acre for dollar spot at 14-28 day intervals

Fore 80 WSP PFFOR6 8x4x1.5lb

For fusarium, red thread, brown patch, slime molds, Helminthosporium & other diseases in turf and some diseases in ornamentals. Use 4-6oz. per 1000sf.

Heritage PSHR6S 6lb Jug PSHER6 6x1lb PSHR01 4x1 Gal LinkPak PSHRLP 10 Gal

For control of anthracnose, brown patch, pink or grey snow mold, leaf spot, red thread. Use .2 to .4oz. per 1000sf. for 14 - 28 day control..

Headway PSHW21 2x1 Gal LinkPak PSHWLP 10 Gal

Headway uses the power of two active ingredients to deliver broad-spectrum disease control against dollar spot, brown patch, and many other major turf diseases. Using dual modes of action helps ward off disease resistance and allows Headway to control a wider range of diseases

Instrata PSIN02 2x2 1/2 Gal

Excellent snow-mold control. Multiple modes of action against disease resistance "Caution" label.

Control of a broad spectrum of additional turf diseases, including anthracnose, dollar spot, brown patch, and summer patch.

Insignia PSIN42 4x2.4lb

Controls key turf diseases for up to 28 days. Delivers better control of the top 5 diseases than Heritage.

Suppresses dollar spot

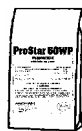

Medallion PSMED 14x8x1oz PSME10 2x16x5oz

For turf, Medallion is a contact fungicide offering excellent control of Anthracnose, Brown Patch, Bentgrass Dead Spot, and Snowmold.

PCNB PSPCNB 2x2 1/2 Gal

For Snow Mold control use 8oz. per 100sf.

Prostar PPS25 10x1lb

Commonly used for Fairy Ring and Brown Patch.
To Control Brown Patch: Use 1.5 - 3 oz. per 1000sf.
Fairy Ring: 2.2 - 4.5 oz. per 1000sf.

26/36 PS2636 2x2 1/2 Gal

26/36™ Fungicide is a foliar applied fungicide, recommended for turfgrass disease control on golf courses, sod farms, and institutional areas where fine turf is grown. It provides effective, broad spectrum turf disease control and is effective in controlling the following diseases: Dollar Spot, Brown Patch, Anthracnose, Leaf Spots such as Helminthosporium Leaf Spot caused by Drechslera spp.pathogens, Corticium Red Thread, Fusarium Patch, Zoysia Patch, Ascochyta Leaf Blight and Copper Spot. **Use 2 to 4 oz.per 1000sf. AI: Iprodione + Thiophanath-methyl**

Spotrete F PSSF02 2x2 1/2 Gal

Spotrete Turf Fungicide and Animal Repellent is a contact fungicide containing the active ingredient thiram. Spotrete can be used for the prevention and control of Dollar Spot, Brown Patch, Rust, Leaf Spot, Red Thread, Copper Spot and Melting Out. **AI: Thiram**

Subdue MAXX PFSUMX 2x1 Gal Linkpak PFSULP 10 Gal

Systemic fungicide to control pythium, and phytophthora diseases on turfgrass.

Use 1-2oz. per 1000sf. and re-treat @ 10-21 days during periods favorable for diseases. Use 20oz. WSP per 20,000sf. @ 10-14 days or 10,000sf. @ 14-21 days

chipco TRITON Triton 70 WDG PSTR70 6x2lb

Triton 70 WDG is registered to control the following diseases: dollar spot, brown

patch, summer patch, anthracnose, take-all patch, large brown patch, red leaf spot, rust, gray snow mold, pink snow mold and red thread. The product is also labeled for suppression of algae.

Use .225 to .6oz. per 1000sf. Preventive rates are .15 to .3oz. per 1000sf. at 14-28 day intervals. AI: Triticonazole

TORQUE PFTRQ1 5X1 GAL

This new, easy mixing water based suspension formula, contains 3.6 lb AI/gallon and provides highly effective and long lasting disease management. This active ingredient has a long development history and excellent track record for

turf disease management." TORQUE is a DMI class product and is labeled for major turf and ornamental diseases. **USE 0.6 OZ / 1000SQFT**

Professional Herbicides

Acclaim PWACC1 4x1 Gal
PWACPT 12x1 Pt
Selective grassy weed herbicide to control crabgrass, goosegrass, barnyard grass, foxtail and johnsongrass. Use .34oz. to 1.02oz. per 1,000sf.

Dimension 2EW PSDMEW 2x2 ½ Gal
Selective Pre-Emerge to control certain grass & broadleaf weeds in established turf grasses & lawns. Use .37 to .83oz. per 1,000sf

Drive PWDRIV 6x1lb
Post-emergence control on broadleaf weeds and Crabgrass. Use 1lb. per Acre or .367oz. per 1,000sf.

Finale PWFN25 2x2 ½ Gal
Total weed & grass killer, works faster than Round Up. Use 2oz. per gallon. (SPECIAL ORDER ONLY).

Fusilade II PWFUS1 8x1 Qt
For use over the top of ornamentals for control of grassy weeds. Use ¾ oz. per gallon of water.

Glyphosate Pro PWGLY5 2x2 ½ Gal
The same active ingredient as Round-Up total vegetation control, which is neutralized in the soil. Glyphosate is safe to use adjacent to domestic water supplies. Spray until foliage is wet. Use 1qt. per acre or 2oz. per gal.

Gallery 75 DF PWGL01 4x1lb
Pre-emerge for broadleaf and annual weeds. Apply late summer / early fall or early spring Use .66 - 1.33 lbs per acre.

Millennium Ultra PWMIL2 2x2 ½ Gal
The latest and most effective three-way control on the market. Contains the key ingredient in Confront (clpyralid) plus 2,4-D and dicamba. (RESTRICTED) Use .55- 1.10oz. per 1000sf.

Pennant PWPEN1 4x1 Gal
Selective pre-emergence herbicide for use in commercial landscapes to control many annual grasses and certain broadleaf weeds. For 4-6 month control. Use 1 ½ oz. per 1000sf. or 2oz. per gallon

Pramitol 25 E PWPR05 4x1 Gal
For weed control on industrial sites where complete control of vegetation is desired for a year or more. Use 5-7 ½ gallons per acre or 1-1 ½ pints per 1000sf.

ProDeuce PWPD64 8X64oz
ProDeuce is a dual action herbicide that combines the pre-emergent, residual activity of prodiamine, with the non-selective, contact control of glyphosate. Use 3 – 6oz. per gal.

Q4+ PWQ401 4x1 Gal
For the suppression of yellow nutsedge, control of certain grassy weeds, such as crabgrass and foxtail, and control of most troublesome broadleaf weeds in established cool-season turf areas. Use 2.6 – 3oz. per 1000sf.

RoundUp ProMax PWRUP5 2x1.6 Gal
RoundUp QuikPro PWRUDP 6x5 x 1½ oz
RoundUp QuikPro PWRUQ6 4x6.8lb
Total vegetation control, neutralized by soil. Safe to use adjacent to domestic water supplies. Spray until foliage is wet. Re-seed after seven days. For dry packs use one pack per gallon.

Use 1qt. per acre or 3oz. per gallon.

ProSedge PWMANG 30x.9gr
SedgeHammer PWMAN1 1.1/3oz

Nutsedge control. For post-emergence control of purple or yellow nutsedge found in established turfgrass, Use 2/3 to 1 1/3 ounces by weight per acre. Use lower rate for light infestations. Use nine grams of Sedgehammer in one or two gallons of water per 1000sf.

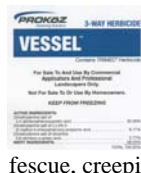

Trimec Bentgrass PWTRB5 2x2 ½ Gal
Broadleaf herbicide for bentgrass. Provides the widest margin of safety. One gallon covers up to 2.9 acres. Use 1.2 – 1 ½ oz. per 1000sf.

Triamine Jet Spray PWTJ23 12x23oz
Controls a wide spectrum of broadleaf weeds in an easy to use aresol. Great for spot spraying.

Triamine PWPAR3 2x2 ½ Gal
Controls a wide spectrum of broadleaf weeds efficiently. A 2,4-D, MCPP, Dichlorprop formulation. Use 3 -4 pts. per acre or 5 - 7 teaspoons per gallon for 1000sf.

Vessel PWTPB5 2x2 ½ Gal
Vessel is a broad spectrum post-emergent broadleaf herbicide containing Trimec® developed for use by turf management professionals. Vessel can be used on cool-season and warm-season turf grasses including, Kentucky bluegrass, perennial ryegrass, fescue, creeping bentgrass, common bermudagrass, hybrid bermudagrass, bahiagrass, zoysiagrass, and St. Augustinegrass. Rates for Kentucky Bluegrass, fescue spp., perennial ryegrass, bermudagrass and zoysiagrass: Use 1.1 to 1 ½ oz. of Vessel in ½ to 5 gallons water per 1,000sf. Closely managed bentgrass: 1.0 oz. of Vessel in 5 gallons of water per 1,500sf.

Professional Insecticides

Arena 50 WDG PIAR40 2x40oz
 New Arena insecticide controls white grubs, chinch bugs, webworms and other damaging pests in turf. A new generation insecticide. Arena also offers suppression of cutworms and mole crickets. Arena works through contact and ingestion to stop damaging pests immediately. It also works systemically to provide season-long residual control of some insects. **Use 6.4oz. per acre.**

Chlorpyrifos 4E PIDU45 2x2 1/2 Gal
 A lawn & ornamental insecticide to control chinch bug, certain white grubs, hyperodes weevil, bagworm and others.
For lawns use 1qt per acre. (RESTRICTED) (Dursban 4 E)

**CORE TECT TREE & SHRUB TABLETS
 PICORE 4x250 Tbl**

Avoid losing transplanted trees and costly call backs with CoreTect™. New CoreTect tablets contain the world's #1 tree and shrub insecticide plus fertilizer, so they protect and nourish. Used during planting or on established plants, CoreTect provides extended insect control through its controlled release technology. Use @ 1-7 tablets' per plant

Dam Oil PISC05 2x2 1/2 Gal
 Dormant and foliar oil spray for fruit and shade trees, ornamentals and evergreens. For most scale when temperatures are above 40°: **Use 1:50 dilution.**

Dylox 420SL PIDY05 2x2 1/2 Gal
 A selective insecticide for effective & fast control of white grubs in turf areas. **Use 6.9 oz. per 1000sf.**

Merit 2.5G PIME2G 4x4lb
Merit 75WP PIMRWP 8x2oz
 Merit 75 WSP insecticide is a new broad-spectrum, systemic insecticide that is effective at very low rates. Spring application for control of billbugs, black turfgrass ateniens, annual bluegrass weevil and grubs. Control for 4 months or longer. **Use 1 pack per 10,000sf.**

Meridian PIME17 4x17oz
 Meridian controls many problem insects in turf including white grubs, sod webworms ants, chinch bugs as well as a list of foliar pests. Works through ingestion and contact by affecting the nicotinic acetylcholine receptors. **Use 12.7-17oz/Acre**

Provaunt PIPRO8 8x10oz
 Provaunt insecticide is a water dispersible granular that may be applied as a foliar or broadcast spray to control lepidopterous larvae (such as armyworms, cutworms, sod webworms, bagworms, fall webworms, gypsy moth caterpillars, tent caterpillars, tussock moth caterpillars, yellownecked caterpillars) and certain other pests on landscape and recreational (including golf course) turfgrass and landscape ornamentals including trees, shrubs, foliage plants, flowers and non-bearing fruit and nut trees, which will not produce a raw agricultural commodity during the season of application.

Scimitar GC PISC01 8x1qt
 General use insecticide for a broad-spectrum control of insect pests on ornamental & turf areas. For chinch bugs, hyperodes: **Use 10oz. per acre. For ants, armyworms, cutworm, sodwebworms, ticks use: 5-10oz. per acre.(RESTRICTED)**

Sevin SL PISL02 2x2 1/2 Gal
 For Grubs, water in thoroughly. For surface insects, do not irrigate. For chinch bug irrigate before application to aid penetration. **For turf use 6oz. per 1000sf. or 8qts. per acre.**

Tempo SC Ultra PITE05 500ml
Tempo SC Ultra GC PITEU98 X 900ml
Tempo 20 PITE20 4x55gr.x4/cs
 A general use insecticide for broad-spectrum control of insect pests on trees, ornamentals, and home lawns. **Use 1 to 1 1/2 oz. per 100 gallons on ornamentals. For Lawns use 5.9oz. per acre**

Professional Miscellaneous

Affinity Wetting Agent PMAF05 2x2 1/2 Gal
PMAF30 30 Gal
 Nonionic Wetting agent a unique blend of soil active surfactants formulated to be applied as a monthly wetting agent program.tees& greens initial 6-8 oz/1000 monthly 3-4oz monthly Fairways initial **3-4 oz/1000 monthly 1-2oz monthly**

BioGain WSP PMBIOG 4x10x 1/4 lb
 For newly seeded or established turf, sod and landscaping plants, BioGain WSP is a unique, dry, water soluble combination of chelated iron micronutrient, natural humic substances, cold water kelp and a proprietary blend of natural sugars, vitamins, amino acids and beneficial bacteria. BioGain WSP is designed for use in spray application programs to reduce stress and stimulate root growth.

Defoamer PMDEF1 12x1 Qt
 Suppresses foam in spray tanks and is compatible with most pesticide chemical spray solutions. **Use 1oz. for 100gal**

Ferromec AC PMFEAC 2x2 1/2 Gal
 Ferromec AC Liquid Iron is a sprayable product containing iron combined with nitrogen and sulfur designed to produce a rapid turf green-up. "AC" designates "amine compatibility" — a formulation buffered to avoid problems when herbicides or fertilizers are tank-mixed with Ferromec AC.

Gary's Green PMGARY 2x2 1/2 Gal
18-3-9 + Iron. Gary's Green will give you a fast green up and dense turf without a surge of weak growth.

Professional Miscellaneous

Gary's Green Ultra PMUGA2 2x2 1/2 Gal

13-2-13 + Iron. Gary's Green Ultra is a combination of Gary's Green and Ultraplex. Each gallon consists of 2/3 Gary's Green and 1/3 Ultraplex.

Grass Greenzit PMGZT2 2x2 1/2 Gal

Greenzit restores green color to dormant or discolored grass. It is not a dye but a permanent green pigment that will not wash or wear off.. Rates vary from 1 gal. per 2000sf.

Tuff-Turf PMTURF 2x2 1/2 Gal

1-0-14 + Ca + Micros + Si. Tuff-Turf provides increased green speed, turf blade hardening and rigidity, color and quick ball mark traffic recovery.

Sili-Kal-B PMSILI 2x2 1/2 Gal

8-0-4 + Ca + Si + B. Sili-Kal-B is a high calcium product combined with nitrogen and potassium providing increased cell strength, disease resistance and turf rigidity.

Lake and Pond Dye PMLPDY 4x6x5 1/2 oz

PROKOZ Lake and Pond Dye is a proprietary blend of environmentally friendly, nontoxic, water-soluble dyes formulated to reduce sunlight

penetration and impart a natural blue coloring to natural and man-made ponds, water hazards, lakes and fountains. The professional way to produce a natural blue appearance, Lake and Pond Dye aids in beautifying golf courses, parks, corporate campuses, campgrounds, retention ponds and farm ponds. This odorless, nontoxic liquid is safe for fish, birds and animals. Lake and Pond Dye comes in a quick-dissolving SoluPak that treats up to one acre foot of water.

Ultra-Plex PMULTR 2x2 1/2 Gal

5-0-3 + 2% Fe + Micros. A sophisticated proprietary liquid combination of macro and micro nutrients, plant and root promoting stimulators and plant and soil wetting agents. Ultra-Plex is a multiplex combination of the following Grigg Brother's Products: Each gallon of Ultra-Plex consists of 40% Iron Combo Chelate, 30% Aminoplex, and 30% Intake.

Indicate 5 PMIND5 4x1 Gal

Indicate 5 Acidifies, Indicates PH, Buffers, Wets, Spreads & Penetrates and reduces volatility. When the optimum PH is reached the spray solution will change to pink or red.

SDI Spi Max (Blazon) PMSPI2 2x2 1/2 Gal

Spi Max spray marker is blue and leaves a temporary visual identification of the sprayed area.

Use 14 to 32 oz. per acre or .28 to .64 oz. per gal. based on 50 gal. per acre spray rate.

Tri Cure PMTC05 5Gal PMTC30 30Gal PMTC22 55 Gal

TriCure AD™ is an advanced, non-phytotoxic wetting agent designed to prevent the development of hydrophobic soil conditions and Localized Dry Spots while optimizing use of rain and irrigation water. Use 4oz/1000sqft with 2 Gal water per month for normal conditions

Turfmark Green PMTMGR 2x2 1/2 Gal

Use 32 oz. for 100 gallons of spray solution. For backpack sprayers, use 1 oz. per 1000sf. In approximately 3 gallons of solution.

Primo Maxx PMRIMO 2x1 Gal Linkpak PMRXL 10 Gal Primo WSB PRIWSB 4x16x4oz

Suppresses 50 % of turf growth on Rye, Blue, & Fescue Grasses for 4 weeks. Use 3/4 to 1 oz. per 100sf. Use lower rates on low cut turf and golf courses.

Salute WSP PMSA24 24x 1/2 lb

Turfgrass Conditioner with Potassium Silicate Salute™ WSP is a unique, dry blend of natural humic substances, seaweed extract, potassium silicate, plant saponins, carbohydrates, sucrose, amino acids and beneficial bacteria in pre-measured water soluble packets. It is designed for use in spray programs to increase wear tolerance, to enhance ball roll, to facilitate uniform cutting of turfgrass, to reduce stress and stimulate root growth through enhanced water and nutrient uptake, and to promote recovery and healing

Trimmit 2SC PMTR02 2X2.5 Gal

Trimmit® 2SC is a plant growth regulator for turfgrass that slows grass growth for up to two months after application. Trimmit 2SC suppresses Poa annua in bentgrass and perennial ryegrass greens, fairways and tees, while enhancing overall turf quality. Additionally, clippings and the frequency of mowing can be reduced by up to 50% during the period of effective retardation.

Nu-Film P PMNUP1 4x1 Gal

A spreader sticker for use with all pesticides to increase the efficiency of sprays. Use 4-6 oz. for 100 gallons of spray

Vapor Gard PMVG01 4x1 Gal

An anti-transpirant for use on plants to retard water loss & maintain healthy foliage. Use 1 part Vapor Gard to 20 parts water.
