

# The Professional's Choice

## Super Lawnspur (20-0-5) With 30% Slow Release Nitrogen

Keeps Lawns greener and stronger for a longer period of time. **Super Lawnspur** is the all season fertilizer, ideal for Spring, Summer, Fall and Winter feeding. Contains the best slow release nitrogen available.

(40lb. bag covers 10,000sf.)

Code	Description	Pallet						
TF0140	(40lb) Super Lawnspur 20-0-05	50						

## Turfspur II (25-3-5)

The next generation **Turfspur**. The 25-3-5 fertilizer formulation with 30% slow release nitrogen provides long term economical feeding. (40lb. bag covers 10,000sf.)

TF0240	(40lb) Turfspur II	50						
--------	--------------------	----	--	--	--	--	--	--

## Turf Fertilizer (18-3-5)

An **ECONOMICAL** 18-3-5 turf fertilizer with 30% slow release nitrogen providing long term feeding with the same **TERRE COMPANY** quality you expect. (40lb. bag covers 10,000sf.)

TF1835	(40lb) 18-3-5 Turf Fertilizer	50						
--------	-------------------------------	----	--	--	--	--	--	--

## Winterspur (9-19-18)

A granular formulation that can be used as a starter fertilizer as well as a late fall and winter feed for fine turf areas. (35lb. bag covers 10,000sf.)

TF0335	(35lb) Winterspur	60						
--------	-------------------	----	--	--	--	--	--	--

## Weed 'n Feed (20-0-10) w/ 1.58% Viper

This product is a premium grade herbicide and turf food blended to control a wide spectrum of broadleaf weeds which includes a 20-0-10 fertilizer with a 30% PSCU slow release nitrogen source and 2,4-D, Isoctyl, MCPP and Dicamba. "Viper" (OK for NY) Weeds contacted by the granules gradually die and disappear from the turf.

(40lb. bag covers 10,000sf.)

TC0240	Weed 'n Feed w/ Viper	50						
--------	-----------------------	----	--	--	--	--	--	--

## Andersons Weed 'n Feed (18-0-5) w/ .03% LockUp & .07% Dicamba

LockUp is a new post-emergent herbicide that is absorbed via leaves, shoot & roots and then translocated into other plant areas, also contains Dicamba a root absorbed post emergent herbicide to control a wide spectrum of broadleaf weeds. Blended with an 18-0-5 fertilizer with a 25% NSN slow release nitrogen source for controlled, extended feeding. (50lb. bag covers 10,800sf. @ 4.6lbs / 1000 sqft.) SGN145

AN1805	(50lb) 18-0-5 w LockUp & Dicamba	45						
--------	----------------------------------	----	--	--	--	--	--	--

# The Professional's Choice

## Super V Fertilizer w/.29% Prodiamine (Barricade) (20-0-5 w/25% Slow Release Nitrogen)

Combines a polymer coated nitrogen source with a Super Pre-emergence. Keeps lawns greener, stronger and weed free for a longer period of time. (40lb. bag covers 10,000sf)

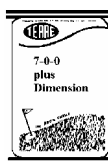

Code	Description	Pallet						
TC0740	(40lb) SuperV w/Prodiamine	50						

## Turfspur II Plus Crabgrass Control w/.09% (Dimension)

Combines our Turfspur II fertilizer 20-0-5 w/25% PSCU slow release nitrogen and Dimension, the crabgrass preventer that allows a wide window of application (40lb. bag covers 6,000-12,000sf.)

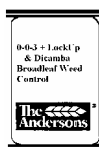

TC0250	(40lb) Turfspur II w/Dimension	50						
TC0540	(40lb) Turfspur II w/.86 Team Pro	50						

## 7-0-0 Plus .172% Dimension

For the customer that wants the best crabgrass preventer available but does not need a full application of fertilizer. (50lb bag covers 20,000sf.) (Dimension restricted use in NY)

TC0550	(50lb) 7-0-0 plus Dimension	40						
--------	-----------------------------	----	--	--	--	--	--	--

## 0-0-3 Plus .03% LockUp & .07% Dicamba

This product is a stable combination of two herbicides, LockUp & Dicamba which are absorbed via leaves, shoots & roots to control a wide spectrum of broadleaf weeds. (50lb. bag covers 10,800sf. @ 4.6lbs / 1000 sqft.) SGN100

AN0003	(50lb) 0-0-3+ LockUp & Dicamba	45						
--------	--------------------------------	----	--	--	--	--	--	--

## 18-0-3 Plus Insect Control w/.069% Bifenthrin

Combines our turf fertilizer 18-0-3 30% polymer coated slow release nitrogen with **Bifenthrin** to control ants, chiggers, chinch bugs & ticks (40lb. bag covers 12,000sf.)

TC0840	(40lb) 18-0-3 Plus Bifenthrin	50						
--------	-------------------------------	----	--	--	--	--	--	--

## 18-0-3 Plus Insect Control w/.2% Imidacloprid

Combines our turf fertilizer 18-0-3 for ground water sensitive areas with **Imidacloprid** for control of grubs and other lawn pests. Contains 30% polymer coated slow release nitrogen. (40lb. bag covers 11,600sf.)

TC0640	(40lb) 18-0-3 Plus Imidacloprid	50						
--------	---------------------------------	----	--	--	--	--	--	--

## Fertilizers for Flowers, Vegetables and Shrubs

### Rodo-Gro (6-8-4)

Specially blended for Azaleas, Rhododendrons, Hollies, Laurels and other acid loving plants. Broadcast 4 lbs. per 100sf. Or use one cupful per 3ft. diameter plant.

TF0640	(40lb) Rodo-Gro	50						
--------	-----------------	----	--	--	--	--	--	--

### Ocean Gro (5-5-0)

Organic Fertilizer is registered with the New Jersey Department of Agriculture. It is manufactured to fertilizer specifications from biosolids, which exceeds EPA Exceptional Quality Standards.

OCEANGRO is an excellent fertilizer for cool and warm season lawns, trees, shrubs, and flowers. OCEANGRO is a nutrient rich, consistent size, all natural dust free organic fertilizer, which is weed free, non-burning and runoff resistant with a balanced pH.

### 13-2-13 / Ammonium Sulfate 2% Iron plus Micros

SGN 100 50lb. bag covers 12,500sf. @ 1/2 lb N per 1,000sf.

- High quality greens grade with micronutrients providing a complete fertilizer.
- Ammonium Sulfate contributes over 90% of the total nitrogen.
- Provides reduced incident of Take-All Patch on bentgrass greens.
- More effective reduction of Dollarspot than Urea Nitrogen.
- Long term effectiveness in fighting moss infections

Code	Description	Pallet	Each	Pallet	6 -9Pallets	10 +Pallets	T/L

### FF II 14-3-3SGN 80 35lb. bag covers 11,000sf. @ 1/2 lb N per 1,000sf.

- Controlled release nitrogen feeding with PCNB.
- Increases turf density and quality when used on a programmed basis.
- Highly efficacious as a result of fine particle formulation.
- Unsurpassed control of pink and gray snow mold.
- Prevents and controls stripe smut, leaf spot, brown patch, rust and dollar spot

Code	Description	Pallet	Each	Pallet	6 -9Pallets	10 +Pallets	T/L
APFFF2	(35lb) FF II 14-3-3	35					

### K-O-G SGN 100 35 1/2 lb. bag covers 12,500sf. At the medium rate

- Effective post-emergent weed control of 14 actively growing dicot weeds.
- For use on cool and warm season grasses, except St. Augustine and Dichondra.
- Uses DG Pro dispersible carrier, minimizing mower pickup and product visibility.
- Timing and application rates are flexible for maximum effect.

Code	Description	Pallet	Each	Pallet	6 -9Pallets	10 +Pallets	T/L
ANPKOG	(35 1/2 lb) K-O-G	45					

### Governor 5-0-10 SGN 75 32lb. bag covers 6,300sf. At the medium rate.

- Contains the same active ingredient as Primo Maxx.
- Reduces turf grass clippings by 50%.
- Unique granular formulation for spreader application.
- Ideal for hard to reach mowing areas.
- Reduces watering requirements.
- Reduces expenses for mowing labor and equipment maintenance.
- Allows longer interval between mowings.
- Will not affect seed germination or neighboring plants.
- Redirects grass growth energy into roots and shoots improving turf density, durability and color

## Stocked *ContecDG* Fertilizers

### 18-9-18 Turf Fertilizer with DG ProContec

SGN 75 60% MUtech / Fe/ Mn 40lb. bag covers 7,200sf. @ 1lb N per 1,000sf.

- Contec high performance methylene urea technology for controlled even nutrient release.
- Homogenous greens grade particle.
- High rate of potash from potassium sulfate.
- DG Pro dissolves quickly into turf canopy when irrigated, improving playability.
- Will not burn when used as directed

Code	Description	Pallet

### Why Foliar Nutrition Makes Sense

The concept that the "non-root" parts of plants take up nutrients from nutrient sprays and other applications has been shown over a long period of time by many researchers using radioactive isotopes on all nutrients to follow their entry into the plant and translocation throughout the plant.

**All Grigg's products contain a series of selected natural organic compounds, "Organic-facilitators," which chelate or complex nutrients and keep them in functional form until the plant utilizes them.**

**Gary's Green 18-3-4 + Iron** Designed to be foliar applied and completely absorbed while it is drying on the target plant. Gary's Green will give you a quick visual response: the chelating and complexing agents it contains are rapidly absorbed into the plant tissue to provide a rapid and sustained green-up.

**Nutra Green 5-10-5 + Iron** Nutra Green delivers high levels of quickly available phosphorus important for photosynthesis and energy transfer. It contains a unique proprietary combination of plant-based amino acids, organic acids and complex polysaccharides which buffer each nutrient preventing rapid release. Nutra Green can be used on turfgrass, ornamentals and shrubs.

**Tuff-Turf 1-0-14 + Ca + Micros + Si** Tuff-Turf contains high levels of quickly available potassium enhancing resistance to abiotic stress. Tuff-Turf contains silicon, a beneficial element for grasses, increasing cell wall strength and blade rigidity. Environmentally friendly, the organic base in Tuff-Turf is used as a food source by both plants and microorganisms. Acidic ph at 4.0.

**Sili-Kal-B 8-0-4 +Ca + Si + B** Sili-Kal-B is a unique combo product that includes calcium, boron, potassium and nitrogen as well as organic facilitators including plant based amino acids, organic acids and complex polysaccharides to insure optimum absorption and availability. Properly chelated Calcium can be absorbed through leaf tissue.

**Ultra-Plex 5-0-3 + 2% Fe + Micros** Ultra-Plex is organic based and contains 15 recognized biostimulants. Contains an effective non-ionic organic surfactant. Fast response, typically 1-3 hours. Enhances response of fertilizers.

**A-O-K 1-0-24** Potassium promotes drought and heat tolerance, cold hardiness, wear tolerance, increased cell strength, stolon and rhizome growth and improves salt stress tolerance..

### Green Spec Granular

**16-4-8 Turf Rally™** has all of the same great qualities as all Green-Spec™ products PLUS these unique qualities: Formulated to produce a controlled and lasting color response. It conditions and improves nutrient depleted soils and is formulated to be ground water safe. A special nitrogen formula that works in 3 different ways - a small amount of ammoniacal nitrogen (2%) gives a quick feeding and activates growth. A large percentage (11%) of water soluble, organic nitrogen quickly works its way into the soil where it provides continuous, even feeding. The smaller amount (3%) of water insoluble organic nitrogen, is a slow release form that feeds the turf for a longer period of time. This triple action formula gives lawns just the right amount of food to keep them looking great 8-12 weeks.

**8-4-16 Endurance™** has all of the same great qualities as all Green-Spec™ products PLUS these unique qualities: Formulated to revitalize and strengthen turf, as well as improve color. It conditions and improves depleted and compacted soils while protecting ground water from nutrient leaching and high heavy metal concentrations. Designed to be used as a substitute for 16-4-8 Turf Rally™ when smaller amounts of nitrogen are required. It will produce the same color improvements during the warmer summer months. Additionally, 8-4-16 Endurance™ is the ideal fertilizer for promoting wear tolerance and stress resistance. Late fall applications will help to increase cold tolerance.

Growth Products offers technologically advanced liquid fertilizers, chelated micronutrients, biological fungicides with beneficial microbes, natural liquid organics, our proprietary Smart Nitrogen®, and a chorus of other products to make you and your turf top-flight.

**As a golf course professional, you demand superior results on every tee, every green, and every fairway.**

**The Classic 18-3-6**

**Liquid Fertilizer Solution with 50% SRN Plus Micronutrients**

Growth Products' **The Classic 18-3-6** is a professional liquid fertilizer for golf course tees and greens. Made from the highest quality N-P-K raw materials and micronutrients, Classic 18-3-6 provides golf course professionals with outstanding results and pin-point control.

**Starter Plus 8-32-5**

Liquid Fertilizer Solution with 50% Slow Release Nitrogen

**The Landscaper's Companion** A powerful biological soil amendment, **Landscaper's Companion** contains everything you need to make your planting or transplanting job successful.

**Nitro-30 SRN (30-0-0)** Known as the *Smart Nitrogen™*, is the smart choice for turfgrass professionals.

A clear liquid, **Nitro-30** is safe, easy-to-handle, and provides superior agronomic results. **Nitro-30** provides rapid correction of nitrogen deficiencies and gives steady, even feeding without harmful surge growth.

**Nitro+K 22-0-16**

82% Slow Release Nitrogen with Potassium Carbonate

**"TKO" Phosphite 0-29-26**

"TKO" Phosphite 0-29-26 is a concentrated P/K solution that's highly beneficial to all types of golf and lawn turf and is also used extensively in the agricultural and horticultural industries.

**X-Xtra Iron 10%**

**X-Xtra Iron 6-0-0** contains more iron than the closest competitive product on the market. **X-Xtra Iron** provides 100% soluble, chelated iron in an immediately available form for both foliar and root applications. With its low nitrogen to iron ratio, **X-Xtra Iron** provides rapid green-up without any harmful surge growth. It's a difference you can see in just 24 hours!

**Essential® Plus 1-0-1**

**100% Natural Organic Soil Amendment and Root Stimulator with 21 L-Amino Acids**

**Essential® Plus** is a 100% organic liquid that works both as an amendment for soils and as a safe, effective root stimulant for all turf types.

**Companion® Liquid Biological Fungicide**

Prevents, controls and suppresses a broad range of turf diseases including Anthracnose, Brown Patch, Dollar Spot, Summer Patch, Fusarium Patch, Pythium and Phytophthora. One of Growth Products' most innovative products, **Companion®** was the first-ever EPA registered biofungicide on the U.S. market.

**As a turf professional, you demand nothing less than perfection, whether you are a sports turf manager working on athletic fields or racing tracks, or a sod grower.**

**Repair Plus™ 3-0-3 Grow in Seed Faster, Mend Divots, and Restore Damaged Turf**

Granular product that fixes divot damage and speeds turf repair in bare spots in minimal time, with minimal effort. Easily mixed with sand or other soil media, **Repair Plus™** is recommended for top-dressing or when overseeding.
