Better plants and better people since 1925!!

The Terre Company is not your average plant broker. What sets us apart from others is that we use and sell the same plants that we offer to you. You see, we have our own re-wholesale yard where we sell the plants described below to contractors, garden centers, and municipalities. So we have first hand knowledge of which growers do the best job at producing which plants at a fair price. We also have five experienced sales people who are ready to listen to your needs and point you in the right direction. So put us on your team and let us share our insight with you to advance your business. Below is a brief synopsis of some of our premier growers. Call for full availability.

Sales force: Tom Feury, Steve Addeo, Bob Schreiner, Pat O'Neil, Dave Barrett
