• TURF FERTILIZER •

20-0-5

This quality fertilizer formula provides primary plant nutrients for all types of lawns and ornamental turf. It promotes a lush green color, stronger root systems, and helps you nurture a vigorous lawn that looks great even in heavy traffic areas.

APPLICATION TIMING:

For a show-place lawn throughout the growing season apply this fertilizer every 4 to 6 weeks, or along with other turf care products (such as crabgrass preventer, weed & feed, insect control, etc.) as part of a total lawn care program.

Most lawn grasses need 1 to 4 pounds of nitrogen per 1000 square feet over the growing season.

Fertilizer application can be tailored to meet the exact nutrient requirements of your lawn, by having your soil tested. Contact your university extension service or local agricultural experiment station for information on soil testing services available in your area.

HOW TO APPLY:

Spread this fertilizer on your lawn at the rate of 4 pounds per 1,000 square feet, or as suggested by soil testing or professional advice. When temperatures exceed 90 degrees, or dry conditions exist, reduce the application rate by one half to prevent possible burning of the turf.

Apply on a calm day when the grass is dry, using a properly calibrated spreader. Faster greening will result if the fertilizer is watered in after application.

For more uniform spreading and to avoid streaks, cover the area two times, applying at half the recommended rate, with the second application perpendicular to the first. Fill the spreader on a driveway or sidewalk so that any spilled material can be swept up and properly spread on the lawn. Do not hand spread.

4 Steps to a Perfect Lawn

To help make your lawn feel & look like a plush carpet, here are some steps for you to follow.

STEP 1

In early Spring

Stop crabgrass before it takes over your lawn with TERRE Fertilizers & Crabgrass preventers, or use a straight Crabgrass preventer. If spot seeding is required, seed with TERRE Seed mixes & use a "Tupersan" crabgrass control. DO NOT use any other crabgrass preventer when seeding.

STEP 2

In late Spring

Control Dandelions and broadleaf weeds with our TERRE Weed & Feed, or straight weed controls.

STEP 3

In Early Summer

Control your Insects with TERRE Fertilizer & Insect controls or straight Insect controls.

STEP 4

In Fall

Overseed needed areas in early fall and feed with one of our fertilizers. Then in late fall prepare your lawn for Winter dormancy by feeding with our fall fertilizer. Fall fertilizer (Nov-Dec) is the key to a strong weed free lawn.

USE THIS FORMULA TO CALCULATE THE AMOUNT OF PRODUCT YOU NEED:

$$\frac{\text{Length of Property} \times \text{Width of Property}}{\text{Total Square Feet}} = \frac{\text{Total Square Feet}}{\text{Coverage Needed}}$$

GUARANTEED ANALYSIS 20-0-5

Total Nitrogen (N)----- 20%
20.00% Urea Nitrogen*

Soluble Potash (K₂O) ----- 5%

Plant nutrients derived from: urea, polymer coated sulfur coated urea, potassium chloride, Chlorine (Cl) Max----- 4.24%

*10% Slowly available nitrogen from polymer coated sulfur coated urea.

KEEP OUT OF REACH OF CHILDREN
CAUTION: May cause irritation on contact with skin or eyes, flush with plenty of water.

SPREADER SETTINGS

Scotts R8A	I

Drop
First apply two strips at ends. Then apply product along the length of the lawn, overlapping slightly and shutting off spreader when turning.

Rotary
Apply in a circular path, starting on the outside and working toward the center, overlapping slightly.

Sweep
This product may stain driveways, walks, patios, pools, etc. Wash or sweep off thoroughly immediately after each use.

Note: Spreader settings are approximate, and may vary according to condition of your equipment. Calibrate your spreader before use. Shut off spreader when turning or stopping, to avoid over-application and possible turf damage. Avoid excessive overlap. Clean and lubricate your spreader after each use.

IMPORTANT: READ BEFORE USE:

Read the entire Directions for Use and the Warranty Disclaimer and Limitation of Liability before using this product. If terms are not acceptable, return the unopened product container at once. By using this product, user or Buyer accepts the following Warranty Disclaimer and Limitation of Liability:

WARRANTY DISCLAIMER and LIMITATION of LIABILITY:

Manufacturer warrants that this product conforms to the chemical description on the label and is reasonably fit for the purpose stated on the label when used in strict accordance with the directions.
