TERRE LAWN AND GARDEN PRODUCTS

OFFERS:

- A FULL 40% PROFIT, PLUS ADDED PROFITS FOR VOLUME
- FORMULAS ADAPTED TO YOUR AREA
- A 2% ADVERTISING ALLOWANCE
- SPEEDY DELIVERIES

ADVERTISING:

An advertising allowance will be given for your use in local newspapers. This allowance will be 2% of your total purchases of all items from THE TERRE COMPANY (exclusive of nursery stock) from January 1st through June 30th. To receive your allowance, submit a tear sheet of your advertising copy together with your invoice for the same. *THIS ADVERTISING ALLOWANCE MAY ONLY BE USED TOWARDS THAT PORTION OF THE AD DEDICATED TO AT LEAST 2 TERRE BRANDED PRODUCTS & THE TERRE LOGO.*

WARRANTY:

THE TERRE COMPANY warrants that the seed, fertilizers, insecticides and herbicides sold as described on the container are within recognized tolerances, but gives no warranty, expressed or implied, as to the performance of these products - whether used according to directions or not. The buyer assumes all risks.

CLAIMS:

Claims for damaged merchandise or shortages should be made as soon as possible after delivery.

TERMS OF PAYMENT:

- Customers with approved credit, **Net 30 Days**.
- A minimum purchase of \$100 is required to charge on all established credit accounts.
- All other sales are **C.O.D.**
- Accounts unpaid after 30 days from date of delivery will be charged 2% per month interest.
- Prices listed in this catalog are subject to change without prior notification.
- A \$50 handling fee will be assessed for all returned checks.
- Visa, Amex, MasterCard and Discover accepted.
- All open accounts that are paid with a credit card will be assessed a convenience fee of 3%.

TERRE CO. POLICIES:

SALE OF RESTRICTED USE PESTICIDES: We are required by law to maintain copies of your Current pesticide applicator's permit on file to sell you restricted use pesticides.

ORDER PLACEMENT: Available 24 hours a day! During regular business hours or after hours leave your order on our fax machine: (973) 473-4402 or email to sales@terrecompany.com

PICK-UP: We maintain an efficient pick-up department enabling our customers to satisfy their needs in a hurry!

FED EX: Is often the fastest and least expensive way to handle small orders. Delivery and handling charges will be added to your invoice.

DIRECT SHIPMENTS:

For even greater savings, see if you qualify for direct shipment from one of the many fine growers we represent in container and field grown Nursery stock. We can now offer you most of the material in this list on a direct ship basis.

GUARANTEE:

We give no guarantee, expressed or implied, as to life, description, quality, or any other matter concerning our Nursery Stock. Acceptance of our Nursery Stock at the time of the sale is considered to be proof that you are satisfied with the health and survivability of these plants. **WE WILL NOT REPLACE OR GIVE REFUNDS FOR ANY REASON ON NURSERY STOCK ONCE IT HAS LEFT OUR YARD. NO EXCEPTIONS!!**

CUSTOMER PICK-UP INFORMATION:

Since we only sell to the wholesale trade, our yard prices are posted. We do this to make it more convenient for you, our customer, without confusing you with some kind of a coding scheme. Because of this, and for insurance reasons, we do not encourage you to bring your customers to the nursery yard. Pick ups can only be made by you and your authorized employees.

BUSINESS HOURS:

Regular Business Hours are Monday - Friday 7:00 am – 5:00 pm
We are Open Saturdays until Noon.

January & February have winter hours Monday – Friday 7:00 am – 4:00 pm Closed on Saturdays
Close for the Following Holidays New Year's Day, Presidents Day, Memorial Day, Independence Day, Labor Day, Thanksgiving Day, Day after Thanksgiving, Christmas Day

Grigg Brothers Foliar Fertilizers

Why Foliar Nutrition Makes Sense

The concept that the "non-root" parts of plants take up nutrients from nutrient sprays and other applications has been shown over a long period of time by many researchers using radioactive isotopes on all nutrients to follow their entry into the plant and translocation throughout the plant.

All Grigg's products contain a series of selected natural organic compounds, "Organic-facilitators," which chelate or complex nutrients and keep them in functional form until the plant utilizes them.

Gary's Green 18-3-4 + Iron Designed to be foliar applied and completely absorbed while it is drying on the target plant. Gary's Green will give you a quick visual response: the chelating and complexing agents it contains are rapidly absorbed into the plant tissue to provide a rapid and sustained green-up.

Tuff-Turf 1-0-14 + Ca + Micros + Si Tuff-Turf contains high levels of quickly available potassium enhancing resistance to abiotic stress. Tuff-Turf contains silicon, a beneficial element for grasses, increasing cell wall strength and blade rigidity. Environmentally friendly, the organic base in Tuff-Turf is used as a food source by both plants and microorganisms. Acidic pH at 4.0.

Sili-Kal-B 8-0-4 + Ca + Si + B Sili-Kal-B is a unique combo product that includes calcium, boron, potassium and nitrogen as well as organic facilitators including plant based amino acids, organic acids and complex polysaccharides to insure optimum absorption and availability. Properly chelated Calcium can be absorbed through leaf tissue.

Ultra-Plex 5-0-3 + 2% Fe + Micros Ultra-Plex is organic based and contains 15 recognized biostimulants. Contains an effective non-ionic organic surfactant. Fast response, typically 1-3 hours. Enhances response of fertilizers.

Professional Granular Products

Insect Controls

Talstar XTRA Verge (PGTS25) (Bifenthrin)

For control of Armyworms, Cutworms, Sod Webworm: Use 50lbs. per Acre. Annual Bluegrass, Weevil (Hyperodes) (Adult), Billbugs (Adult) Black Turfgrass Ataenius (Adult), Leafhoppers, Mealybugs: Use 50-100lbs. per Acre. Ants, Centipedes, Chinch Bugs, Fleas (Adult), Fleas (Larvae), Imported Fire Ants, Millipedes, Mole Cricket (Adult), Mole Cricket (Nymph) Ticks, Pillbugs, Sowbugs Use 100-200lbs. per Acre.

Dylox Granular (PGDX37)

Control of white grub larvae, such as Japanese beetle. 30lb. bag covers 10,000sf.

Zenith .5G / Merit .5G (PGZN30)

Control of white grub larvae, such as Japanese beetle. Also Controls Billbugs, Black turfgrass ataenius and Hyperodes. 30lb bag covers ½ acre.

Fungicides

T-METHYL 2.08% (PG36HJ)

T-METHYL is a broad-spectrum fungicide exhibiting preventative, curative and systemic properties. It is useful on a wide variety of turf and ornamental disease problems including Dollar spot, Brown patch, Leaf spot, Red thread, Fusarium and more. 30lb. bag covers up to 20,000sf.

Eagle 0.39% (PGEHJ)

Eagle 0.39% Granular Turf Fungicide is a granular product containing systemic, protectant and curative fungicide for the control of listed diseases in established turfgrass. Examples of such sites include, residential and commercial lawns, ornamental turfgrass, grounds or lawns around business and office complexes, golf courses (fairways, roughs, tees, greens) and sod farms. Optimum disease control is achieved when this product is applied to established turfgrass in a regularly scheduled preventative program. Eagle 0.39 Granular Turf Fungicide covers approximately 7,500 sq ft at the application rate of 4 lb per 1000 sq ft

Weed Controls

Snapshot DG (PGSNAP)

Pre-emergent herbicide for control of annual grasses and broadleaf weeds on ornamentals, trees and nursery stock. Use 100-200lbs per acre.

Treflan .5G (PGTR40)

Pre-emergent herbicide for control of annual grasses and broadleaf weeds on ornamentals, trees and nursery stock. Use 80lbs per acre.

7-0-0 + Dimension (TC0550)

A small amount of nitrogen used as a carrier for the best crabgrass preventer available. Dimension provides a wide window of application. 50lb. bag covers 20,000sf.

Professional Chemicals

HERBICIDES

Acclaim LM FT-PWACC1 4x1 Gal
Acclaim LM FT-PWACPT 12x1 Pt
 Selective grassy weed herbicide to control crabgrass, goosegrass, barnyard grass, foxtail and johnsongrass. Use .34oz. to 1.02oz. per 1,000sf.

Pramitol 25 E LM FT-PWPR01 4x1 Gal
 For weed control on industrial sites where complete control of vegetation is desired for a year or more. Use 5-7 1/2 gallons per acre or 1-1 1/2 pints per 1000sf.

Q4Plus LM FT-PWQ401 4x1 Gal
Q4Plus LM FT-PWQ4QT 12xQt
 For the suppression of yellow nutsedge, control of certain grassy weeds, such as crabgrass and foxtail, and control of most troublesome broadleaf weeds in established cool-season turf areas. Use 2.6 - 3oz. per 1000sf.

RoundUp ProMax LM FT-PWRUPM 2x 1.6 gal
RoundUp DryPak LM FT-PWRUDP 6x5 x 1 1/2 oz
RoundUp QuickPro LM FT-PWRUQ6 4x6.8lb
 Total vegetation control, neutralized by soil.
 Safe to use adjacent to domestic water supplies. Spray until foliage is wet. Re-seed after seven days. For dry packs use one pack per gallon.

Specticle Total LM FT-PWSP44 4X144oz
 Non-selective control of emerged and pre-emerged grasses and broadleaf weeds in Non-Crop Areas, Dual Action FORMULA Kills EXISTING WEEDS & GRASSES PLUS Prevents New Weeds & GRASSES for up to 6 Months. Rainproof in 30 minutes. Use 16oz per gal to cover 1000sqft

ProSedge LM FT-PWMAN1 1.1/3oz
 Nutsedge control. For post-emergence control of purple or yellow nutsedge found in established turfgrass, Use 2/3 to 1 1/3 ounces by weight per acre. Use lower rate for light infestations. Use nine grams of Sedgehammer in one or two gallons of water per 1000sf.

Tenacity LM FT-PWTEN8 12x8oz
Tenacity LM FT-PWTEN1 4x1 Gal
 With its proprietary active ingredient, mesotrione, Tenacity herbicide can be used both as a pre-emergence and post-emergence herbicide to selectively control 46 weeds and grass species, including creeping bentgrass in Kentucky bluegrass, perennial ryegrass, or fine and tall fescue. This systemic herbicide is safe to use on established or newly seeded turf.

Triplet SF LM FT-PWTRP1 5x1 Gal
 Triplet SF is perfect for control of hard-to-kill broadleaf weeds, such as dandelion, clover, henbit, and plantains in turfgrasses.

Triamine LM FT-PWPAR3 2x2 1/2 Gal
 Controls a wide spectrum of broadleaf weeds efficiently. A 2,4-D, MCPP, Dichlorprop formulation.
 Use 3 -4 pts. per acre or 5 - 7 teaspoons per gallon for 1000sf.

FUNGICIDES

Eagle 20 EW LM FT-PSEGL4 4x1 Gal
 Controls dollar spot, brown patch, leaf spot.
 Rates from .6oz. per 1000sf. 1 case covers 80,000sf

Organic Herbicides

Avenger® Weed Killer- Eco-Friendly

- Avenger® Weed Killer is a non-selective, post-emergence herbicide that quickly and effectively kills weeds, grasses and broad leaves
- Including: Spurge, Sow Thistle, Shepherd's Purse, Clover, Hairy Fleabane, Crabgrass, Smooth Crabgrass, Dandelion, Whitestem Filaree, Bermuda Grass, Bindweed, Johnson Grass, Shepherds Purse, Common Mallow and Little Mallow
- Fast acting- visible results in less than 2 hours
- The active ingredient d-limonene (citrus oil) naturally strips away the waxy plant cuticle, causing it to dehydrate and die
- University and independent testing results prove that Avenger® Weed Killer is as effective, but faster acting when compared against leading synthetic herbicides
- When tested against non-organic 'natural' herbicides that contain, vinegar (acetic acid), citric acid, clove oil or fatty acids (soap) it is more effective with quicker results
- Use from a 1 to 7 ratio to a 1 to 3 ratio depending on the weed. See label for instructions
- Great for use in & around: Gardens, Lawns, Shrubs, Flower Beds, Driveways, Sidewalk, Patios, Borders, Outside Walls, Mulch Beds, Gravel Beds, Mature Trees & Ornamentals, Greenhouses, Fencerows, Foundations, Buildings, Golf Courses, Athletic Fields, Parks & Recreation Areas, Kennels & Animal Enclosures

- Sprayed areas can be planted within hours
- Can be used around pets, people and wildlife

LM FT-PWBO41	Avenger 4x1 gal	
LM FT-PWBO25	Avenger 2x2.5 gal	

BURNOUT

- **NON-SELECTIVE WEED CONTROL** - BurnOut weed control is for use on non-selective herbaceous broadleaf and grassy weeds. Read the label for specific annual broadleaf weeds, perennial broadleaf weeds, annual grasses, and perennial grasses to be treated.
- **FAST ACTING WEED KILLER** - Our weed killing formula can provide results in just hours! Additionally, once this product dries after application it becomes waterproof!
- **VARIETY OF USES** - It works in temperatures as low as 40 degrees Fahrenheit. It is great for use around borders, driveways, sidewalks, the base of mature trees, around buildings, fence lines, barns, pastures, school grounds, greenhouses, and more.
- **MADE WITH NATURAL INGREDIENTS** - BurnOut is made with natural ingredients making it a great alternative solution to synthetic grass and weed killers. Also because of the natural ingredients, it is people and pet-friendly when used as directed.
- **CONCENTRATE MIX FORMULA** - Burnout concentrate is used in combination with water. Mix 1 part of this product to 3 parts water (8 fluid ounces of this product in 24 fluid ounces of water). Spray to the point of run-off, making sure that all of the foliage is wet. One gallon of finished spray solution covers approximately 1,500 sq.ft.

INSECTICIDES

LM FT-PITE05 TEMPO SC ULTRA 240ml \$59.00 each

Quick knockdown, long residual fast broad-spectrum control of more than 100 nuisance pests Controls Ants Aphids Armyworms, Azalea caterpillars Bagworms Black vine weevil (adult) Boxelder bugs Bristly rose slugs Budworms California oakworms Cankerworms Casebearers Clover mites Cockroaches Crickets Cutworms Elm leaf beetles Emerald Ash borer (Adult)* Elm spanworms Flea beetles Flies Fungus gnats Grasshoppers

Gypsy moth larvae Japanese beetles (adult) June beetles (adult) Lace bugs Leaf-feeding caterpillars Leaf hoppers Leaf rollers Leaf skeletonizers Mealybugs Midges Mosquitoes Oleander moth larvae Orchid weevil Pear psylla Peppertree psyllid Pillbugs Pine shoot moths Pine tip moths Plant bugs Redhumped caterpillars Sawfly larvae Scale insects (crawler stages) Sowbugs Spiders Spittlebugs Striped beetles Striped oakworms Walnut caterpillars Webworms Whiteflies Yellow necked caterpillars Tent caterpillars Thrips Ticks (including deer ticks) Tussock moth larvae Wasps and many more Rates from 4 to 8ml per 1000sqft.

Triple Crown T&O LM FT-PITC01 4x1 Gal

Triple Crown Golf LM FT-PITCG1 4x1 Gal

Triple Crown is the singular solution that combines fast knockdown, lasting residual and broad-spectrum pest control with multiple modes of action. By eliminating the need to tank mix multiple products to control above- and below-ground pests, Triple Crown helps save time, money and shelf space. Apply .23-.80 fl oz. per 1,000 sf.

HORNET / WASP SPRAY LM FT-PIHW20 12x20oz

Spectracide Wasp and Hornet Killer (Aerosol) eliminates wasp and hornet nests by killing insects on contact. It lets you spray nests with a 27 ft. jet spray. Formulated for outdoor use against stinging wasps and hornets.

- Up to 27 ft jet spray
- Kills on contact
- Eliminates the nest
- Non-staining

MISCELLANEOUS

Dam Oil

LM FT-PISC05 2x2 ½ Gal

Dormant and foliar oil spray for fruit and shade trees, ornamentals and evergreens. For most scale when temperatures are above 40°: Use 1:50 dilution.

Nu-Film P LM FT-PMNUP1 4x1 Gal

A spreader sticker for use with all pesticides to increase the efficiency of sprays. Use 4-6 oz. for 100 gallons of spray

Vapor Gard LM FT-PMVG01 4x1 Gal

An anti-transpirant for use on plants to retard water loss & maintain healthy foliage. Use 1 part Vapor Gard to 20 parts water.

Bonide Turbo LM FT-PMTURB 12x8oz

A spreader sticker for use with all pesticides to increase the efficiency of sprays. Use 1/2 oz. per gallons of spray

Soil Moist Plus

Soil Moist Plus 7-7-7 is a synthetic acrylic water storing polymer blended with an 8-9 month timed release 7-7-7 fertilizer. It is a safe, non-toxic polymer used in all horticultural and landscape applications. When used according to the application rates, SOIL MOIST PLUS 7-7-7 will reduce irrigation frequency by 50% and last 3-5 years in the soil. The fertilizer is effective in the soil for 8-9 months at 70°F.

Soil Moist Plus 7-7-7 polymers are not multi-use polymers that were developed for other industries. Soil Moist Plus 7-7-7 are potassium based and specifically designed for the horticultural and landscape industry.

- Reduces plant watering by 50%
- Reduces plant stress due to lack of available water
- Feeds a timed release fertilizer for 8-9 months
- Increases soil aeration
- Reduces transplanting shock
- Cost effective

Hart Seeds

THE CHAS. C. HART SEED CO.
PACKAGED FLOWER & VEGETABLE SEEDS

Everyone loves Hart's seeds! These beautiful display racks let you create a one-stop seed center which will provide you with floor traffic and profits. With the Hart's sale & return program, there is no cash outlay. The famous Hart's name and low price guarantee your sales! There is a Hart's Seed Rack to Fit Every Need.

Seed Establishment Mulches

Seed Aide® CoverGrow™ Spread or Spray Mulching Granules

Profile® CoverGrow™ is an advanced technology pellet made from recycled wood and cellulose fibers. Once applied and activated by water, the pellets quickly expand and disperse to provide outstanding protection and water-holding performance right where it's needed—whether you're spot treating smaller bare spots, or hydrospraying larger areas, CoverGrow is the easy and convenient way to establish vegetation.

Broadcast with Spreader or by Hand

- Increased swelling, dispersion and coverage compared to leading dry applied pellets
- Smoother flowing for easy spreader application
- Stays in place due to advanced tackifier technology

Hydroseeding

- Rapid dispersion and fast mixing in jet-agitated hydroseeders
- Easy application of the smooth shooting, high coverage slurry
- Resists rainfall impact to stay in place longer than competition due to advanced tackifier technology

Hydrated Pellets

Dispersion 60 seconds after receiving 40 mls of water
CoverGrow Mulching Pellets give you 50 lbs. of coverage in a 40-lb. bag

Dry Pellets

CoverGrow Competition
Each sample is 10 grams of dry pellets

Erosion Control

WE KEEP THE EARTH FROM MOVING. Using comparative testing protocol developed over the past 20 years at the Utah Water Research Laboratory (UWRL), Futerra® F4 Netless™ took erosion control effectiveness ratings to unprecedented levels. Percent effectiveness compares erosion amounts of a slope treated with an erosion control device versus the same unprotected slope when subjected to rainfall events under carefully controlled conditions. Slope gradient, slope length, soil type, rainfall event and duration of event are among the parameters most commonly evaluated when comparing erosion control devices. Percent effectiveness is determined by subtracting the soil loss ratio of the treated surface versus an untreated control surface ("C" Factor) from one and multiplying by 100 percent. Tests have documented the superior performance of F4 Netless™ versus other leading erosion control blankets when evaluated under the same conditions.

Through its patented combination of wood fiber and crimped, interlocking man-made fibers, F4 Netless™ absorbs and holds nearly five times its weight in water—creating a moisture reservoir that ensures accelerated germination and growth. F4 Netless™ provides greater slope erosion control effectiveness, increased water absorption and establishes vegetation faster than straw blankets.

LANDSCAPE LIGHTING

Old world craftsmanship. . .today's technology®

CAST Lighting Manufactures state-of-the-art Landscape Lighting Fixtures, Transformers and complete Landscape Lighting System Components. Our fixtures are hand-crafted sand-cast solid bronze at a price comparable to aluminum landscape lighting fixtures. CAST Lighting's low voltage transformers have a host of innovative features and CAST No-Ox marine grade wire is tin-coated to prevent corrosion.

From the latest LED systems to traditional incandescent choices, the complete kichler landscape collection helps landscape professionals deliver exactly what the homeowner envision for the home!!

Integral Lighting products provide innovative solutions to hardscape lighting. Designed by Hartman Design Inc, Integral Lighting products are engineered, manufactured and supported in the USA. Though often imitated, our combination of clean design, efficient installation and reliable performance is unrivaled in the industry. Our proven service and support is backed by years of experience and state of the art manufacturing facilities, giving us the ability to provide product and service beyond your

expectations

Tru-Scapes Landscape Lighting is developed by two professional landscape design and build companies in Pennsylvania with the mission to create a good quality LED landscape lighting product at an affordable cost to our fellow contractors. Their goal is also to provide a line of products that is simple and focused on the lights that are the most common styles that we install in our projects and not a giant catalog full of options for our clients to get lost in. This allows our distributors to have our full line of products in stock and also give our landscape lighting contractors better availability and easier, more streamlined sales to the customer.

Sports Field Covers

Standard Turf Blankets

- Strong, lightweight polypropylene with built in UV inhibitors to prevent breakdown from sunlight
- Easy to install, easy to remove
- Helps protect turf, promoting stronger, healthier root penetration
- Helps minimize damage from winterkill, wind and insects
- Extends growing season, allows earlier green-up
- All blankets come with a 5-year limited warranty against manufacturing defects & UV degradation

Includes Freight to most NJ Locations

Clay bricks for baseball fields Bricks

Maximizing Performance with Minimum Maintenance

The pitcher's mound and home plate areas are the most important pieces of real estate on a baseball diamond. Unfortunately, these areas are often constructed and maintained with inferior materials that breakdown quickly, causing "pot holes" that jeopardize the safety of athletes and reduce the quality of play. Clay bricks for baseball fields are Pre-formed into easy to use clay blocks, installs quickly and performs superbly. Properly maintained, Clay bricks will reduce the labor involved in caring for your pitcher's mound and batter's boxes. It is ideal when renovating or rebuilding mounds and boxes.

Washington Ball Mix Most Popular

Mar-Co's Washington Ball Mix gives you the best play for the best price. It's the standard in baseball clay mixes, offering both quality and value. One of our most popular baseball infield mixes, Washington Ball Mix offers low maintenance and repair costs, optimal moisture control, professional-looking red clay, and softer footing for safety.

Nominal Size: < 3/16" **Field Usage** - Infield skin

Maintenance Practices - Low Maintenance Casual groundskeeping equipment & practices

Characteristics - High drainage - Fine texture - Softer footing - Soft bounce - Good water retention

NOW STOCKED IN 1.5 Ton Super Sacs

Home Base Blend

Mar-Co's custom home base blend has the right texture for sliding safely, yet it can handle heavy traffic.

Nominal Size: < 1/8"

Characteristics - Fair drainage - Moderate texture - Solid footing - High water retention

Field Usage - Professional home plate area - Little league mounds Mound construction

Maintenance Practices - Requires daily water, grooming and tamping

Diamond Clay Conditioner

Get a soft texture, very high drainage, and good water retention for any size ballpark with Mar-Co diamond clay conditioner. Created from baked clay that's been crushed and screened into a uniform size range (1/8" or less), this red-orange product is designed as a conditioner for heavy clays and is most suited to improving infields with drainage issues.

Nominal Size: < 1/8"

Characteristics - Soft texture - Very high drainage - Good water retention

Field Usage Amendment for heavy clays, Warning track

Maintenance Practices - Casual groundskeeping equipment & practices

Profile Porous Ceramic (PPC) Greens Grade

Greens Grade is an inorganic soil amendment proven on thousands of greens across the country to resist compaction, eliminate localized dry spot, drain better and facilitate healthy root systems that leave turf less prone to disease and other maintenance problems. A kiln-fired porous ceramic from a unique mineral deposit in Mississippi, Greens Grade replaces peat in any sand-based root zone

A Greens Grade particle is 74% pore space with 39% capillary (water) pores and 35% non-capillary (air) pores. Blended with sand, it increases the water and nutrient holding capabilities and the air and drainage pores—permanently improving most soils. The small-sized particle is ideal for sand-based construction and is available in two distinct colors—Natural for use in construction and topdressing, and Emerald to disguise worn areas and blend in with turf.

Code	Description	1-39 Bags	40-199 Bags
LM GS-ACPR50	(50lb) PPC Greens Grade		

TURFACE Reduces Compaction Making Fields Safer

Turf MVP. with its high porosity and strong angular shape fights compaction, keeping infields firm enough for solid footing yet resilient enough for safe, consistent play. Turf areas are also greatly affected by compaction. TURFACE MVP's pore space improves the exchange of water and oxygen needed to promote a healthy root system.

Turf Pro League is a patented soil conditioner manufactured with smaller, more consistent particles that flow easily into aeration holes. Used as a topdressing, Pro League saves games and turf by preventing slick and muddy conditions that destroy turf and make fields unsafe and unplayable. It provides superior drainage and absorption and delivers the color, safety and performance of a Major League infield.

Turf Quick Dry is specifically designed to absorb infield puddles and should be used in conjunction with TURFACE MVP. TURFACE Quick Dry is the same high quality calcined clay as TURFACE MVP but sized for greater surface area to eliminate puddles instantly. Like TURFACE MVP, TURFACE Quick Dry also absorbs its weight in water, slowly releasing the moisture. This allows TURFACE Quick Dry to work over and over again as it conditions the infield surface.

Field & Fairway™ is the perfect choice for conditioning native soil sports turf. Field & Fairway is ideal for heavy traffic areas near goals on Soccer fields. Its uniform particle size makes it perfect for new field construction, topdressing and infilling aerated fields. It is available in natural and emerald green to blend in with the color of sports turf. Its performance is proven in University testing and in the real world by groundskeepers like Ken Mock of the Chicago Bears.

TREEGATOR

TREEGATOR technology allows 15 or 25 gallons of water to be delivered to the roots of the tree without run-off or evaporation reducing watering frequency and saving valuable man hours.

TREEGATOR is very simple to use. Just zip TREEGATOR around the tree trunk and fill through the opening at the top. Water trickles from holes that surround the bottom. When the TREEGATOR is empty, unzip and refold, leave it at the tree until the next watering, or zip it around another tree and refill.

TREEGATOR can fit up to a 12" caliper tree. On 1 - 3 inch caliper trees, a single TREEGATOR should be used. On 4 inch caliper trees or larger, two or 3 TREEGATORS zipped together around the trunk should be used.

TREEGATOR continuously waters for approximately 5 to 9 hours, 2 water release points per bag.

TREEGATOR JR.

15 Gallon Low Profile Drip Irrigation System

Professionals Irrigate Any Low Branched Tree or Shrub Effectively and Efficiently

Arbor Tie

Better than traditional methods such as wire and hose, ArborTie is safe, soft, easy to use and less expensive than traditional tree ties.
The soft polypropylene materials have an exclusive weave that ensures a rounded edge at all times. This prevents the material from ever cutting into the bark of the tree, which is a common cause of injury or death to young trees. The weave also prevents ArborTie from unraveling like rope or string. Girdling is eliminated while improving safety and strength.

HOME & GARDEN POLY TARPS

They're tough High density poly woven scrim is 10 x 10 per square inch with two mils durable low-density. Ultraviolet resistant polyethylene makes the material virtually rip-proof. . . highly resistant to most chemicals.

Lightweight and easy to handle While some 8'x 10' fabric tarps can weigh as much as 20 pounds, the 8'x 10' Dize Home & Garden Poly Tarp weighs less than three pounds

Durable Dize Poly Tarps feature heat-sealed seams, reinforced corners, polyethylene rope-lined and double-stitched hems. Rustproof grommets are placed approximately every three feet.

Landscape and Paver Edging

ValleyView Industries

Black Diamond

Black Diamond is the industry leader. The "original" patented lawn edging from 1968, Black Diamond set the industry standard for quality. It has a plastic composition unmatched in the industry. Today, many landscapers, who are aware of lower priced alternatives, remain loyal to the consistency of Black Diamond performance. It is the ultimate edging, 1/2" taller and 20% heavier than any other!

PAVERS & HARDSCAPES

Now that The Terre Company has merged with Extech Building Materials, we have access to a whole new spectrum of products. Along with landscape supplies we now sell and stock pavers, wall block, and everything regarding building materials and hardscapes. We deal with multiple hardscape companies to assure that you and your customers get exactly what they are looking for.

Since 1995, Belgard's locally made and nationally backed products have transformed thousands of residential and commercial properties across North America. Their uncompromising level of quality and craftsmanship sets the standard for hardscapes. And their remarkably natural look and feel is unrivaled in the industry. They strive to improve their products by spending more than 20,000 hours in research and development every year. Perfecting new products keeps them aligned to current design trends and places Belgard on the cutting edge of manufacturing techniques and technologies.

For more than 50 years Nicolock has been trusted to help homeowners in achieving their perfect home. From technological advances such as their paver-shield, to their advanced color blending technique, Nicolock has continued to lead the way in production and supply of quality concrete products.

Revolution Stone brings the beauty of natural stone to your modern construction and restoration projects. Whether adding substance and grace to new constructions, or matching the historic imprint of a landmark structure, Revolution Stone's precision cut, natural stone will help you realize your vision. Why compromise your vision with an imitation product, when you can have the genuine article? Revolution Stone Works facility boasts state of the art stone cutting machines from around the world, operated with a passion for our craft with over 120 years of collective stone experience.

Cambridge Pavingstones are changing America's Landscape with Pavingstones and Wallstones! They want towns all over the United States to upgrade their sidewalks, downtown areas and municipalities with products that will outperform concrete and asphalt. They are allowing people to extend their living space beyond their four walls so that they can enjoy time with family and friends throughout the year. This is about something larger than a pretty driveway or patio. It is about an investment that makes people feel good about coming home or taking a walk in their local community. Their mission is to encourage positive change in the environments we utilize each and every day.

Better plants and better people since 1925!!

The Terre Company is not your average plant broker. We have first-hand knowledge of which growers do the best job at producing which plants at a fair price. We also have experienced sales people who are ready to listen to your needs and point you in the right direction. So put us on your team and let us share our insight with you to advance your business. Below is a brief synopsis of some of our premier growers. Call for full availability.

Casper Nursery:

Today this third-generation wholesale nursery provides over 300 varieties of plants to customers all across the United States. For over half a century the company has grown from a few acres to one which has three locations and continues to buy additional land to support its 30% annual growth.

Jersey's Finest! Field and container grower of perennials, grasses, and beautiful plants from Azalea to Yucca. Talk about variety...Casper's got it! Their low minimum, low freight and *Just in Time* delivery service makes Casper Nursery an ideal addition to any portfolio. Visit their website at www.caspersnurseries.com

Flowerland Growers:

Flowerland Growers LLC is a modern wholesale and retail greenhouse located in Northwest New Jersey. Our facility is over 90,000 square feet with an additional five acres used for outdoor production. We offer a wide variety of plants for every season including annuals, perennials, herbs, vegetables, planted containers, hanging baskets, fall mums, poinsettias and much more. Our establishment supplies products to many garden centers, supermarkets, farm stands, landscapers, golf courses, florists, schools, churches, and fundraising organizations. Delivery is available six days a week to New Jersey, New York, Pennsylvania, and Connecticut. www.flowerlandgrowers.com

KG Farms:

Established in 1985 as a strawberry, grass seed and vegetable farm, KG Farms diversified into producing nursery stock in the spring of 1991. What began as two acres of field grown plant material has now expanded to 400 acres of deciduous trees, broadleaf evergreen shrubs, and grafted conifers.

Quality field grown B&B Nursery Stock includes:

Abies, Acer, Araucaria, Buxus, Cedrus, Chamaecyparis, Corylus, Cryptomeria, Cupressocyparis, Cupressus, Hamamelia, Ilex, Juniperus, Larix, Picea, Pinus, Prunus, Pseudotsuga, Sciadopity's, Taxus, Thuja, and Viburnum.

Visit their Web site for full availability and photos at www.kgfarmsinc.com

Riggins:

Riggins Nursery currently consists of 16 acres of holding houses and 50 acres of field-grown stock where over 500 varieties of plants are grown, including Proven Winner, First Editions, and Ball varieties. The identifying characteristics of Riggins Nursery have been growing top quality plants and providing excellent customer service. We try to maintain a balance between being large enough to keep our customers' needs supplied and being small enough to retain a family-run business. All of our manager positions are filled by family members which we feel helps us to maintain our quality and service.

Visit their web site for more info at www.riggins-nursery.com

South Valley Nursery, LLC

North Carolina grown B&B Evergreens and deciduous plants available for direct ships to your location. Ornamental trees, Boxwood, Holly, Conifers and known for their large Kalmia My. Laurel B&B 18-24"-6' x 6' and Rhody Maximum Native 24-30" – 6' x 6' supers! Call for availability and pricing.

Turco Nursery:

We go the extra mile one customer at a time.

We provide Wholesale Ground Cover to Nurseries, Landscapers, landscape Architects And Garden Centers etc.

We have been growing ground covers for over forty years.

Our Products Include:

- Pachysandra Terminalis
- Vinca Minor
- English Ivy
- Baltic Ivy
- Specialty Ivies (Needlepoint, Glacier and Golden Child)
- Euonymus Coloratus
- Liriope Big Blue
- Liriope Variegated
- Bronze Beauty Ajuga, Burgundy Glow Ajuga and Chocolate Chip

Delivery only 10% with a minimum order of 50 flats mix and match.

Twin Springs Nursery:

Located in the heart of the fertile Willamette Valley of Western Oregon, Twin Springs Nursery is a 275 acre family owned and operated wholesale nursery.

Identifying a need for outstanding nursery stock, Twin Springs Nursery was formed in 1989 with the express goal of providing superior quality nursery stock to the trade and has never lost sight of that original goal. Satisfied customers remain our greatest sales tool and our plants draw those customers back year after year.

Twin Springs Nursery currently grows a broad variety of woody ornamentals. We offer both field grown and container plant material.

W.V. Griffin Nurseries:

Since 1932, W V Griffin Nurseries has been growing and selling Christmas trees to generations of families in New Jersey. At the present South Brunswick location, there are seven varieties of fir, spruce and pine, from four to sixteen feet, waiting to be cut and loaded onto cars heading home for the Christmas season. The perfect tree has been growing in our fields waiting to be chosen by your family. Of course Griffin Nursery also offers all of the trees they grow as live B&B evergreen trees for any landscape project. Their trees available for direct shipments to your location, minimum 40 trees.

Terms and Conditions: Minimums per grower apply; Pricing FOB the grower

NOTE:

Use these recommended settings as starting points when calibrating a spreader to achieve the needed application rates. Once equipment is calibrated the technician should make further setting adjustments as necessary, to maintain the proper application rate. Calibrate spreaders regularly to confirm that equipment wear or other factors have not changed the flow rate. Calibration instructions are included in the owner's manual that was provided by the equipment manufacturer at the time of purchase.
